

## Welcome to the vGIS Partner Program

We welcome you to the vGIS Partner Program and look forward to working with you and your teams. The vGIS Partner Program is designed to create new sources of revenue and differentiation for Partners, offer solutions for customers, and enhance the ability of our Partners to help customers succeed when using vGIS technology.

To join the vGIS Partner Program, you must complete the application below and submit it to [info@vGIS.io](mailto:info@vGIS.io). Program membership will renew automatically for successive one-year terms provided that the Partner remains in compliance with all Program requirements. vGIS reviews Program compliance at least once a year and reserves the right to discontinue the membership of Partners who no longer meet the requirements of the Program.

## Getting Help

Please email all questions to [info@vGIS.io](mailto:info@vGIS.io).

## Partnership Options

### Value-added Reseller

The best option for organizations that seek to handle account administration and provide local support and services.

### Referral Channel

Designed for companies that want to refer clients to vGIS without the hassles of providing account administration and local support.

### Bundled Services

Ideal for companies that plan to bundle vGIS with other products and services provided to their clients (e.g., GIS data collection).

### Technology Partner

Are you a software or hardware OEM looking for a technology partner to integrate your systems with—or engage in—tenders, co-selling, and co-marketing? Then this option was designed just for you.

## Minimum Eligibility Requirements

**Legal status:** registered business.

**Years in operation:** three or more.

**Minimum number of vGIS licenses:** three or more.

**Company scale:** The company is well-developed and has verifiable commercial, sales, and service networks. It has a track record of performance in selling products and services, and it has sufficient customer resources in the authorized areas or industries.

**Non-competition:** The company's products and services do not compete with products and services offered by vGIS.
