Welcome to the vGIS Partner Program

We welcome you to the vGIS Partner Program and look forward to working with you and your teams. The vGIS Partner Program is designed to create new sources of revenue and differentiation for Partners, offer solutions for customers, and enhance the ability of our Partners to help customers succeed when using vGIS technology.

To join the vGIS Partner Program, you must complete the application below and submit it to info@vGIS.io. Program membership will renew automatically for successive one-year terms provided that the Partner remains in compliance with all Program requirements. vGIS reviews Program compliance at least once a year and reserves the right to discontinue the membership of Partners who no longer meet the requirements of the Program.

Application Form

First Name: _____   Last Name: _____

Email: _____   Phone: _____

□ I certify that I have read and accepted the Terms and Conditions.

Type of partnership:

□ Gold Partner
□ Silver Partner
□ Technology Partner

After you have submitted the application, vGIS will review it and notify you if you are approved.

Partnership Options

Gold Partner

The best option for organizations that aim to handle account administration, and provide local support and services. Also, this option is ideal for companies that plan to bundle vGIS with other products and services (e.g., GIS data collection) they provide to their clients.

Silver Partner

Designed for companies that want to refer clients to vGIS without the hassles of providing account administration and local support.

Technology Partner

Are you a software or hardware OEM looking for a technology partner to integrate your systems with— or engage in—tenders, co-selling, and co-marketing? Then this option was designed just for you.

Minimum Eligibility Requirements

Legal status: registered business.

Years in operation: three or more.

Company scale: The company is well-developed and has verifiable commercial, sales, and service networks. It has a track record of performance in selling products and services, and it has sufficient customer resources in the authorized areas or industries.

Non-competition: The company's products and services do not compete with products and services offered by vGIS.
